SUMMARY

.NET Developer with 2.7+ years of experience in designing and developing web and desktop applications using **C#, ASP.NET (Web Forms, MVC), ASP.NET Core, and SQL Server**. Experienced in building **data-driven systems, RESTful APIs, and real-time dashboards**, improving application performance and reducing manual effort through automation. Strong understanding of **backend development, database design, and responsive UI**, with exposure to Agile development practices and cross-functional collaboration.

SKILLS

Programming Languages:C#, JavaScript | **Frameworks & Web Technologies:**ASP.NET Web Forms, ASP.NET MVC, ASP.NET Core, Web API, RESTful Services, Razor Pages, HTML5, CSS3, Bootstrap, AJAX, jQuery

Backend & Application Development:Entity Framework, ADO.NET, Windows Services (WinServices), Object-Oriented Programming (OOP) | **Databases:**SQL Server, MySQL | **Version Control & Tools:**Git, GitHub, Visual Studio

EXPERIENCE

DotNet Developer — Pioneer Machine & Automation (P) Ltd— 01/2023 - Present

- Developed and maintained **web and backend applications** using **ASP.NET MVC, Web API, C#, and SQL Server**, focusing on performance, reliability, and scalability.
- Built **data-driven dashboards and real-time monitoring modules** with responsive UI using **Bootstrap, jQuery, and AJAX**, improving operational visibility and reporting efficiency.
- Implemented **automated data processing, reporting, and historical logging**, reducing **manual effort by ~95%** and improving **operational efficiency**.
- Developed **Windows Services** for continuous **data capture and system integration**, ensuring **high availability (99%)** and **real-time event monitoring**.
- Implemented **role-based authentication and authorization** to ensure secure access across application modules.
- Developed **automated data processing, reporting, and historical logging features**, reducing manual effort and improving system accuracy.
- Created and maintained **Windows Services** for continuous data capture and backend system integration, supporting real-time event monitoring.
- Worked closely with cross-functional teams to analyze requirements, fix production issues, and enhance existing modules.

Key Modules: Production Monitoring, Inventory Management, QC & Testing Logs, Machine Performance Dashboards

PROJECTS

INDUSTRIAL OEE DASHBOARD

ASP.NET ,C# , JUERY ,AJAX , BOOTSTRAP

<https://github.com/Hima322/INDUSTRIAL-OEE-DASHBOARD>

- Built a real-time Industrial OEE Dashboard using ASP.NET MVC, REST APIs, jQuery, and AJAX. Created a Windows Service using MC Protocol to collect machine data.
- Sent PLC runtime, part count, and alarm data to the server for automated OEE calculations. Implemented downtime tracking, alarm monitoring, and shift-wise analytics with SQL Server. GATEPASSFOR GOINGOUTSIDE | Link ASP.NET ,C# , JUERY ,AJAX , BOOTSTRAP Developed a secure web-based.

Gate Pass Management System

ASP.NET ,C# , JUERY ,AJAX , BOOTSTRAP

<https://github.com/Hima322/GatepassFor-going-Outside-Asp.Net>

- using ASP.NET Web Forms and SQL Server. Designed multi-role interfaces (User/Admin/Security) with role-based access control and local storage session handling. Implemented gatepass creation with purpose, exit time, and document attachment support.
- Integrated SMTP email alerts for real-time approval/rejection notifications. Built C# (ADO.NET) backend with full CRUD operations and a Security Panel for employee exit/return tracking.

Personal Portfolio Website

React.js, Bootstrap, JavaScript, HTML, CSS4

<https://github.com/Hima322/Pandey-Himanshu>

- Developed a modern, responsive personal portfolio website using **React.js and Bootstrap** to showcase projects, skills, and experience.
- Built reusable React components for sections like Projects, Skills, About, and Contact, improving maintainability.
- Implemented responsive layouts using Bootstrap grid system for seamless viewing across devices.
- Integrated GitHub, LinkedIn, and portfolio links for enhanced professional visibility.
- Deployed the application on **Netlify** with optimized build and performance.

EDUCATION

Bachelor of Technology (Computer Science) — Kashi Institute Of Technology — 08/2019 - 08/2023 — 7.0 CGPA
